## Partial Road Closure: Fjord Drive

(Poulsbo, WA) -- Fjord Drive, between 6<sup>th</sup> Street and Hostmark, has been closed to thru traffic due to a landslide that occurred last Thursday. The South bound lane is closed, while the North bound lane will have one-way local access only. Geotechnical engineers are concerned about slope stability, and have advised the partial road closure until further notice. Heavy rains and tidal erosion contributed to the slide, and will continue to be monitored. Please see the diagram for road closure details.
